"I certify this league will comply with all organizational requirements such as boundary, population, playing rules, player selection and participation, etc., as outlined in the current edition of the official DSI Rule Guide. In addition, I understand the National Board of Directors of DSI strongly recommends all franchised leagues adopt and implement a child abuse/molestation risk management program. Due to the fact that DSI has no operational control over league security, including the selection of local league volunteers, our league understands it is solely responsible for adopting and implementing a child abuse/molestation risk management program. Therefore, as a condition to maintain its DSI rights, our league hereby indemnifies and holds harmless DSI and its officers, directors, state and district officials, and administrative employees, (collectively the "releasers"), from any legal action, including reasonable attorney fees, based on child abuse/molestation allegations including any allegation of negligence on the part of any or all of the releases, arising from any team tournaments or any activity of our league".
